COMMUNICATION AND COMMUNITY

Good communication is the lifeblood of community. It's what brings people together and creates the bonds of unity. When communication is good, understanding and collaboration flourish. The vitality and creativity of the community is nurtured and sustained by good communication. When there is a problem with communication, things begin to go wrong.

The vitality of our community in St. Joseph's is sustained and nourished by good communication. We have been working on updating and renewing the parish Website.

The work is not yet finished but our hope is that the new website will enhance communication and make it easier for everyone to access the information they need and follow us online. We also want the website to communicate something of the life and creativity of St. Joseph's.

Thanks to the new communications team, the parish has new Facebook, Instagram and YouTube accounts where you can catch up with the latest news from the different groups and activities of the parish.

There is always more we can do. If you have any suggestions or comments to help our Parish communications, please let us know.
