ST. JOSEPH'S ANGLOPHONE MISSION

Here at St. Joseph's we pray and work together through the medium of the English language. A common language helps us to create an environment where people from different nations can communicate, make friends, and create a spirit of community and togetherness.

For most of our parishioners English is not their mother tongue. People from Asian and Africa, as well as people from non-English-speaking countries in Europe have learned English as a second or third language. Naturally, everyone is more at ease praying and chatting in their mother tongue. We feel more comfortable and can find the right words and expressions to say what we mean. Using a second or third language is always a challenge.

At St. Joseph's, we appreciate the effort everyone is making to use English as a common language, even though it is not always easy. This helps us to break down barriers and to create a warm and friendly space where everyone feels at home.

So please feel at home here and don't be self-conscious or nervous about your English. Most of us are struggling with languages as we also try to learn French.
